

Southern Explorer, Thailand

Itinerary - 2 Nights

- **Arrival airport:** Phuket International Airport (HKT) / Hotel
- **Departure airport:** Phuket International Airport (HKT)/ Hotel
- **Embarkation Point:** Chalong Pier, Phuket at 08h30
- **Disembarkation Point:** Chalong Pier, Phuket at 16h00

Marine & Port Fees:

- 35 USD per person

Marine park fees can be paid in advance, or on board.

Transfers : From Hotel in the following areas of Phuket are included. Rawai/Kata/Karon/Patong & Phuket Town

- Transfers outside of these areas will be charged a fee

Minimum dive certification and experience:

Diving conditions in and around the Andaman Sea are generally suitable for all levels of divers. Divers wishing to join this itinerary are advised to have Advanced Open Water certification*, or equivalent, with a minimum of 10 logged dives and experience in currents.

*Advanced Open Water course can be completed on board

It is a mandatory requirement for all divers to have insurance which covers scuba diving activities, including emergency evacuation and recompression chamber costs.

Number of scheduled dives:

- Up to 10

This itinerary involves some long-distance travel and, whilst we attempt to ensure the number of planned dives is fulfilled, bad weather and sea conditions can affect the boat's ability to reach a specific dive site in good time and may impact on the number of dives that are possible.

Safety and dive briefings are conducted in English. If you, or any of your group, do not speak or understand English, please contact us.

The following is an example of the day-today itinerary.

Day 1: Embarkation at 08h30 followed by a cruise to the first dive site of a 3 dive day.

Day 2: Your Cruise Director will schedule up to 4 dives per day; 3 dives and a sunset or night dive. A typical diving day is scheduled as follows:

- Light breakfast, followed by briefing & Dive 1
- Full breakfast, relaxation, followed by briefing & Dive 2
- Lunch, relaxation, followed by briefing & Dive 3
- Snack
- Briefing for Dive 4
- Dinner

Day 3: After dive 3, the vessel commences her cruise to port. Disembarkation is scheduled for around 14h00 - 16h00.

*We kindly request that guests check their flight departure times to ensure that they leave a minimum of 24 hours between their final dive and the departure of their flight. While we wish to show you the very best diving possible, the safety of all on board remains paramount. In the unlikely event we are unable to reach a specified dive site; we always do our best in offering diving at alternative locations.

The following is a description of the dive sites that we may visit during your liveaboard.

Koh Phi Phi

Lying in Phang-Nga bay about 45km east of Phuket and 30km south west of Krabi, two breathtaking limestone islands make up the greater part of Moo Koh Phi Phi; the largest island of Phi Phi Don being a few kilometers north of Phi Phi Lae. Limestone cliffs rise vertically into the sky, where the trees take over. There are many beaches, coves, and bays which make for dramatic scenery to enjoy during surface intervals.

There are many, many dive sites around the Phi Phi island group, many consisting of wall dives, the limestone dropping to depth ranges between 10m and 25m. The walls can have gorgonian fans, soft corals and coral bushes and interesting rock formations and swim throughs. At the base of these walls there are often hard coral gardens to explore. You can expect a great amount of fish life, including lionfish, wrasse, moorish idols, angelfish, rays, trevallies. Also keep an eye out for leopard sharks sleeping on the sandy bottoms or blacktip reef sharks cruising the reefs. Turtles can also quite commonly be seen here. Lastly, check the fans and bushes for tigertail seahorses and harlequin ghost pipefish.

King Cruiser

The King Cruiser was a car ferry that used to travel between Phi Phi and Phuket. In 1997, 'the cruiser' hit Anemone Reef on her crossing and sank a short distance away. No lives were lost, but divers were left with a great wreck dive! While she is largely broken up now, but is covered with soft corals and hides some wonderful gems, as well as being home to several large schools of snapper. While currents can be strong and visibility sometimes challenging, this is a great site to dive as part of an Advanced Open Water course.

Shark Point and Anemone Reef

These pinnacles are part of the same reef system and are only a very short distance apart from each other. Both sites are covered with colorful soft corals and anemones with a variety of fish to suit all divers. From barracuda to seahorses and for the lucky ones of course, the iconic leopard shark!

The Racha Islands

Racha Yai

This trip in general is an excellent trip for beginners and those that have not dived for a while. For any guests aboard carrying out Advanced Open Water courses on-board, Racha Yai offers the perfect opportunity for course dives, with sloping hard coral reefs, white sandy bottoms and a choice of wrecks on the west coast.

Racha Noi

This island has some of the best visibility of all sites in the area. Often described as a 'mini Similans' the granite boulder topography is also unique compared to other sites in the area. It offers a choice of hard coral reefs, boulders with large swim throughs and the beautiful pinnacle on the south point of this island. Strong currents can make the southern sites challenging, however, with a year round chance to see manta rays, it is worth the effort to dive here.
